

WALL TRUNKINGS

- made from plastic
- made from aluminium
- made from sheet steel

GGK is an owner managed German company. In alliance with the sister company WEST-CHEMIE, a manufacturer of PVC granulates, the production process starts with the manufacturing of raw material. Furthermore, **GGK** possesses both the technical process know-how in the extrusion of profiles and a unique innovative product

range. **GGK** has been established on the market of electrical installations for more than 25 years and is nowadays one of the leading European companies and a Specialist in terms of the manufacturing and the distribution of cable management systems made from PVC, halogen-free plastics, aluminium and sheet steel.

WALL TRUNKING SYSTEM – made from plastic

Purpose of the system and usage recommendation for the BR wall trunking system:

Installation in offices, workshops and laboratories regularly subject to high mechanical loads and with functional interior architectural designs (administrations, doctors' offices, hospitals).

Mounting properties and system accessories for the BR wall trunking system (excerpt of product range):

Base and cover of the trunkings are 2m in length, the trunking base is two-rowed perforated (BR 60x170 four-rowed) and with a continuously molded DIN rail for the click-mounting of accessory boxes and separation plates to separate the systems. Molded parts for rounding corners (adjustable), flat angles, T- and cross pieces, end pieces, wall brackets are available. In combination with a wall connection blind a vertical installation (as an installation column) is possible. Colour: pure white (9010); other colours on request.

Device installation / mounting options for the BR wall trunking system:

Compatible with almost all commercially available switch ranges for flush-mounted installation using standard accessory boxes (single and double), for the use of KSE prewired socket units (double and triple) and KSE/M45 adapter frames (double and triple) in combination with M45 device modules.

MICRO WALL TRUNKING SYSTEM - made from plastic

Purpose of the system and usage recommendation for the Micro-BR wall trunking system:

Workstation installation with minimum space requirement in offices, workshops and laboratories regularly subject to high mechanical loads and with functional interior architectural designs (administrations, doctors' offices, hospitals).

Mounting properties and system accessories for the Micro-BR wall trunking system (excerpt of product range):

Base and cover of the trunkings are 2m in length, the trunking base is perforated and with a continuously molded mounting rail for separation plates to separate the systems. Molded parts for rounding corners (adjustable), flat angles, T- and cross pieces, end pieces, wall brackets are available. In combination with a wall connection blind a vertical installation (as an installation column) is possible.

Colour: pure white (9010); other colours on request.

Device installation / mounting options for the Micro-BR wall trunking system:

For the direct M45 device installation (without accessory box) out of the extensive range of M45 devices. M45 Schuko sockets (single, double, triple), inclined (33°) or vertically aligned, data outlets, roller shutter rocker switch and further accessories in the dimension 45x45mm are available.

ACCESSORIES (selected)

Separation plates

for BR, MBR, BRA, MBRA, BRS wall trunkings

	Description	Art. no
	Separation plate TRENN60 extra, PVC, for BR and BRA wall trunkings, for middle division, 60mm height	1456 pack.: 50m
	Separation plate TRENN60, PVC, for MBR and MBRA wall trunkings, for 60mm height	1260 pack.: 100m

	Description	Art. no
	Separation plate TRENNS, made from sheet steel for BRS wall trunkings, 60mm height, 80mm height, 100mm height	11714 11715 11713 pack.: 40m

Accessory boxes

for BR, BRA and BRS wall trunkings (with 80mm cover)

	Description	Art. no
	GDX/P accessory box, single hole, front-mounted, 47mm, for standard 80mm devices, for BR, BRA and BRS wall trunkings	3677 pack.: 40pc.
	GED 50 accessory box, single hole, floor-mounted, 50mm, for standard 80mm devices, for BR and BRA wall trunkings	1261 pack.: 40pc.
	Mounting holder 50, for data outlets, single hole, floor-mounted, for standard 80mm devices, for BR and BRA wall trunkings, ¹ with divider frame / ² without divider frame	3203¹ 3204² pack.: 1pc.

	Description	Art. no
	GDX/P2 accessory box, double hole, front-mounted, 47mm, for standard 80mm devices, for BR, BRA and BRS wall trunkings	3678 pack.: 20pc.
	GED 50/2 accessory box, double hole, floor-mounted, 50mm, for standard 80mm devices, for BR and BRA wall trunkings	1280 pack.: 20pc.

Prewired socket units

for BR, BRA and BRS wall trunkings (with 80mm cover)

	Description	Art. no
	KSE-P/Dialog-2 prewired socket unit, double Schuko, 80mm, colour: white, incl. label field, for BR, BRA and BRS wall trunkings, front-mounted	36782 pack.: 4pc.
	KSE 50/Dialog-2 prewired socket unit, double Schuko, 80mm, colour: white, incl. label field, for BR and BRA wall trunkings, floor-mounted	21280 pack.: 4pc.

	Description	Art. no
	KSE-P/Dialog-3 prewired socket unit, triple Schuko, 80mm, colour: white, incl. label field, for BR, BRA and BRS wall trunkings, front-mounted	36783 pack.: 4pc.
	KSE 50/Dialog-3 prewired socket unit, triple Schuko, 80mm, colour: white, incl. label field, for BR and BRA wall trunkings, floor-mounted	31280 pack.: 4pc.

M45 Adapter frames

for BR, BRA and BRS wall trunkings (with 80mm cover), Device installation: see page 10

	Description	Art. no
	M45 adapter frame, double, empty, mountable with M45 devices (see page 10), colour: white, front-mounted, for BR, BRA and BRS wall trunkings, incl. label field; for horizontal installation	4658 pack.: 1pc.
	M45 adapter frame, double, empty, mountable with M45 devices (see page 10), colour: white, front-mounted, for BR, BRA and BRS wall trunkings, incl. label field; for vertical installation	4664 pack.: 1 pc.

	Description	Art. no
	M45 adapter frame, triple, empty, mountable with M45 devices (see page 10), colour: white, front-mounted, for BR, BRA and BRS wall trunkings, incl. label field; for horizontal installation	4661 pack.: 1pc.
	M45 adapter frame, triple, empty, mountable with M45 devices (see page 10), colour: white, front-mounted, for BR, BRA and BRS wall trunkings, incl. label field; for vertical installation	4667 pack.: 1pc.

- Leading specialist in plastic and metal cable management systems
- Owner managed, group-independent company
- Modern production plant
- Environmentally friendly, resource-efficient production
- Own, innovative product development

- High product availability from stock
- Wide variety of national and international certificates
- Certification according to ISO 9001:2008 
- High quality products „Made in Germany“
- Over 25 years of experience
