

## wall-mounting isolator switches 16 Amp to 100 Amp rating AC23/AC3

 let you downIsolator switches and their enclosures offer tough robust operation throughout the years.

4 Complete
A carefully studied and complete line ranging from 16A to 100A with emergency control versions. They are also equipped with auxiliary contacts for remote indication of main contacts position.

## multi-purpose

Due to its modular dimensions with TER Series interlocked industrial socket-outlets, they can also be installed in multipurpose assemblies, or singularly wall-mounted or machine-mounted.

## applications

SERVICE INDUSTRY
LIGHT INDUSTRY

| $16 \div 100$ A | Rated current |
| :--- | :--- |
| 690 V | Rated insulation voltage |
| IP65 | Protection rated |

## the new frontier of controls

## the results you have always wanted

## UnBEATABLE

An AC23A - AC3 installation class, conditional short circuit current $\mathbf{1 0 , 0 0 0} A$ and guaranteed isolation are but a few of the superbly performing features of the isolator switches. At the maximum level of what the market offers today, they allow direct control of even highly inductive loads (such as pumps, exhaust fans, mills, compressors, etc.) and eliminate costly machine shutdowns with a subsequent increase in the installation's yield.

## NO DOWNGRADING

In addition to making wiring easier, the spacious interior ensures maximum thermal dissipation thereby eliminating downgrading and premature ageing. As a consequence provides ample cabling and glanding space.

## MULTIPURPOSE

May be integrated with TER Series distribution boards which allow multipurpose batteries to be created for direct control of each service or as a battery main switch.

## MODERN

With the knob inserted in the front panel, the packaging meets the most demanding aesthetic needs and reduces the ingress of grime and dirt. This makes the product ideal for areas subject to inspection. The ergonomic knob makes operating with work gloves easy.

| Family LB |  | Wall-mounting isolator switches with black knob and grey plate in insulated box - IP65 |  |  |
